NMC Spring 2022 Clinicals

On sharred days where 2nd semester (first year) and 4th semester (2nd year) students are combined on a unit, the instructors are expected to meet in the morning before clinicals at an arranged time to mutually agree on student assignments. Forth semester students who are in a Leadership and Management clinical may delegate cares to a 2nd semester student on the same patient if census dictates the need to combine.

OR-Pre-op experiences begin at 0630. Students are to be dressed and ready at the desk. No student assigned a surgical patient will follow that patient to the OR. Students will not be allowed in total joint rooms but may view from the window.

Students assigned to the cath-lab will follow cath-lab staff, not a particular patient.
