### **3.0 Purpose:**

This Policy is intended as a guideline to define the parameters of the eligibility requirements and assistance offered under the Policy. This Policy also serves to meet the requirements set forth in the Internal Revenue Code Section 501(r).

### **4.0 Definitions:**

**Amounts Generally Billed (AGB)** – The amounts generally billed for emergency or other medically necessary care to individuals who have insurance covering such care after discounts have been applied

per the effective contract. Newton Healthcare Corporation calculates the AGB pursuant to the Medicare Fee-for-Service prospective method. The prospective method is based on setting AGB for the care at the amount the facility determines would be the total amount Medicare would allow for the care.

**Emergent** – a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in placing the health of the individual in serious jeopardy or serious impairment.

**Extraordinary Collection Actions (ECA)** – ECAs are actions taken by a hospital facility against an individual related to obtaining payment of a bill for care and services provided that may require a legal or judicial process, or involve reporting adverse information about an individual to consumer reporting agencies or credit bureaus.

**Family/Household Size** – see criteria below in 13.2.

**Family Income** – Defined by the Census Bureau and includes:

- Earnings, cash assistance, unemployment compensation, worker's compensation, Social Security, Supplemental Security Income, public assistance, veterans' payments, survivor benefits, pension or retirement income, interest, dividends, rents, royalties, income from estates, trusts, educational assistance, alimony, child support, assistance from outside the household, self-employed earnings from owning a business, and other miscellaneous sources
- Noncash benefits (such as food stamps and housing subsidies) are not included
- Determined on a pre-tax basis
- If a person lives with a family, includes the income of all family members (non-relatives, such as housemates, are excluded)

**Financially Indigent** – Patients (1) who are uninsured or underinsured and (2) whose gross income is from 0% to 275% of the Federal Poverty Guidelines, are referred to as Financially Indigent patients.

**Medically Indigent** – Patients (1) who are uninsured or underinsured, (2) have cash and assets over 275% of the Federal Poverty Guidelines, and (3) have excessive or extraordinary medical liabilities as compared to income.

**Medically Necessary** – Any service or procedure reasonably determined by the patient's treating provider, and within CMS regulations, to prevent, diagnose, correct, cure, alleviate, or avert the worsening of conditions that endanger life. The physical, mental, cognitive, or developmental effects cause suffering or pain, result in illness or infirmity, threaten to cause or aggravate a handicap, or cause physical deformity or malfunction, if there is no other equally effective, more conservative or less costly course of treatment available. It may also include a course of treatment that includes mere observation or no treatment at all.

**The Midland Group – A partner of Newton Healthcare Corporation** is a patient advocate, accounts management company owned by a charitable trust, to assist our patients with affordable payment options and public benefits.
