

YOUR PATIENTS DESERVE HEALING BEYOND THE WOUND

Does your patient have a wound that just won't heal?
With our 97% patient satisfaction rating, **we can help.**

NMC Health's Wound Healing & Hyperbaric Center staff specialize in a whole-person approach. We treat the wound and its underlying cause, while educating and providing emotional support to your patient.

Our team of caring experts are trained in the most advanced techniques available for treating chronic wounds, and we coordinate with you and your patient to get positive outcomes.
